

I listen to K-LOVE on 105.5 and 89.1 everyday. I listen in the car and at home. I would listen at work if I was allowed. This is the only radio station I listen to and has been for several years. There is no other station that provides a commercial-free, positive and encouraging, contemporary Christian music. It is truly unique. Many of the songs I hear on the radio are songs that are song at my church for worship. With so many radio stations that resort to pranks, bad language both from their disc jockeys and music, and that glorify drugs and sex, the whole community suffers if there are no other choices. It is refreshing to hear regular people who are dedicated to making this a better place for all ages. It offers hope when people are desparate, information when people are ignorant, joy when there is so much suffering. This radio station operates as an FM translator service. My family willing pays a donation each month to hear this station. Please don't take this wonderful ministry away.
